

Travels To The Edge With Art Wolfe

26x30' HD

Art Wolfe's work tells a story that is overwhelming, breathtaking and vast.” - Robert Redford

TRAVELS TO THE EDGE WITH ART WOLFE is a High Definition look at some of the most remote, awe-inspiring spots on the planet: spectacular glaciers, stunning deserts, colorful rainforests, remote mountain peaks, important tribal gatherings and untouched habitats. Through the lens of internationally acclaimed photographer and host Art Wolfe, the series captures the beauty and wonder of locations such as Alaska, Australia, Bolivia, Brazil, Japan, India, Iceland, Nepal, Patagonia, Peru, the South Georgia Island and Tanzania.

Over the course of his 30-year career, Art Wolfe has produced more than a million images and published 60 books. His stunning pictures interpret and record the world's fast-disappearing wildlife, landscapes and native cultures. In 1998, The National Audubon Society recognized Wolfe's work supporting the national wildlife refuge system with its first-ever Rachel Carson Award.

Speaking through his lens, Wolfe remains a tireless defender of the wilderness and a passionate advocate for the people and creatures that inhabit it.
